

PLANTS THAT *look* GOOD...

PLANTS THAT *taste* GOOD...

TISSUE CULTURE LINERS

WELCOME

We are so fortunate to have such an amazing following of growers! Thank you for your continued support, ideas, & collaboration. We value and appreciate your trust in us to produce plants that help you achieve your goals. We only succeed when you do.

All the best,

 *Randy* Founder

 *TM* President

TISSUE CULTURE LAB

Our tissue culture laboratories have the ability to produce millions of contaminant-free elite plants for all types of markets. The key benefits of tissue culture are consistent quality, juvenile vigor, superior branching, true to type plants, and rapid build up which allow us to respond to needs quickly.

CUSTOMER SERVICE

We have a great team that gives personalized attention to each order to guarantee exceptional service. Our goal is 100% Customer Satisfaction.

OUR PRODUCTS

All plants in our catalog are grown in a 72 cell pack tray. We use stabilized media from the highest quality substrates. Stabilized media holds the liner together during handling and transplanting, and makes the whole process faster for our customers!

STATE OF THE ART GREENHOUSES

Our liners are grown in sophisticated, environmentally controlled greenhouses with crop specific designs to ensure high quality. We use ebb and flood irrigation with a harvesting system which allows us to capture and reuse our water and fertilizer.

CONTRACT GROWING

We want to produce for you! We do proprietary tissue culture propagation. Please contact us to discuss different growing opportunities.

SERVICES

Our highly skilled and experienced Research and Development team offers a full range of plant tissue culture services.

- Plant tissue culture initiation
- Proprietary propagation & growing
- Development of new and improved cultivars
- Elite stock maintenance
- Virus elimination
- International and domestic material transfers
- Clean room / laminar flow hood projects

If you have any other needs please do not hesitate to ask, we are very capable of taking on other special projects.

Please contact Special Projects Manager, David Lawson, in the R&D department at david@agristarts.com

- Bright chartreuse foliage
- Does not burn in high heat or full sun

Sun, Part Sun | 2-3 mths | 6-12" | 3 ft | 7B-11

Colocasia esculenta 'Maui Sunrise'

PP31,175

- Tropical glossy green foliage
- Flashy white markings and veins

Sun, Part Sun | 2-3 mths | 6-12" | 3-4 ft | 7B-11

Colocasia esculenta 'Mojito'

PP21,995

- Electric green & onyx colored leaves
- Purple and white striped petioles

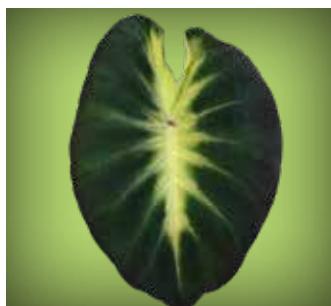

Sun, Part Sun | 2-3 mths | 6-12" | 6 ft | 7B-11

Colocasia esculenta 'Tea Cup'

- Uniquely cupped leaves
- Excellent upright habit

COLOCASIA

Sun, Part Sun | 2-3 mths | 6-12" | 2 ft | 7B-11

**Colocasia esculenta
'Tropical Storm'**
PP28,567

- Small dark leaves with bold central white marking
- Nice compact habit

Sun, Part Sun | 2-3 mths | 6-12" | 3-4 ft | 7B-11

**Colocasia esculenta
'White Lava'**
PP24,481

- Large glossy-green leaves
- Forms creamy white color around veins

Sun, Part Sun | 2-3 mths | 6-12" | 6 ft | 7B-11

**Colocasia gigantea
'Thailand Giant'**

- The largest Colocasia of all
- A wonderful specimen at full size

Sun, Part Sun | 2-3 mths | 6-12" | 3-4 ft | 7B-11

**Colocasia esculenta
'Waikiki'**
PP34,615

- Deep-green foliage with white markings and pink veins
- Glossy foliage

CORDYLINE

Sun, Part Sun | 5-8 MTHS | 6-10" | 2-3 ft | 7-11

**Cordyline australis
'Red Sensation'**

- A staple in mixed containers or on its own
- Red-bronze foliage

Sun, Part Sun | 4-5 MTHS | 6-10" | 2-3 ft | 9-11

**Cordyline terminalis
'Electra'**

- Hot pink, dark purple, cream and green leaves
- Compact habit

Part Sun, Shade | 4-5 MTHS | 6-10" | 2-3 ft | 9-11

**Cordyline terminalis
'Ruby'**

- Burgundy leaves and bright reddish-pink new growth
- Compact habit

DISCHIDIA

Part Sun, Shade | 4-5 mths | 2-4" | 1-2 ft | 10-11

Dischidia ruscifolia Variegated Million Hearts

- Petite trailing plant
- Drought tolerant

ENSETE

Sun, Part Sun | 2-3 mths | 6-14" | 10-12 ft | 8-11

Ensete maurelii

- Also known as Red Abyssinian banana
- A dramatic container or landscape specimen

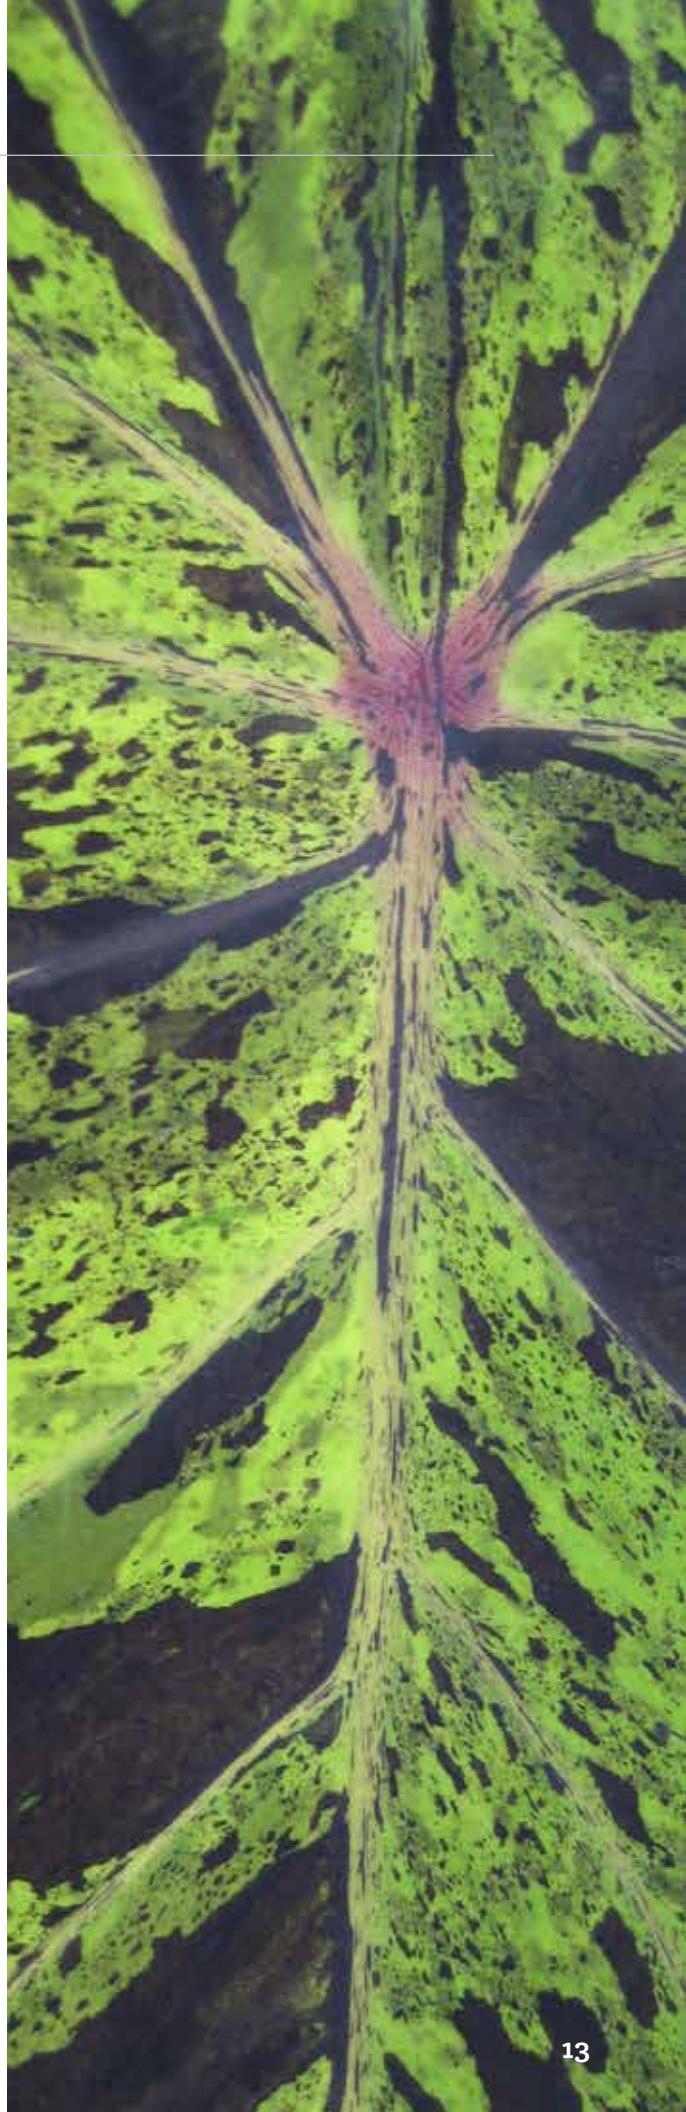

FICUS

Part Sun, Shade | 3-5 mths | 4-14" | 5-10 ft | 10-11

Ficus benghalensis 'Audrey'

- Slightly fuzzy, attractive foliage
- Well behaved, easy to grow tree for containers

HOMALOMENA

● Shade | 3-5 mths | 4-10" | 1-2 ft | 10-11

Homalomena 'Emerald Gem'

- Elegant, dark green, spade shaped leaves
- Suckers out fast

● Shade | 7 mths | 6-8" | 1-2 ft | 10-11

Homolmena 'Selby'

- Camouflage pattern on leaves
- Suckers well

NEW

● Part Sun, Shade | 4-6 mths | 4-14" | 8-16 ft | 9-11

Monstera 'Thai Constellation'

- Stable variegated leaves
- Develops large fenestrated leaves
- Climbing habit

ORNAMENTAL BANANAS

Sun, Part Sun | 2-4 mths | 6-10" | 3 ft | 8-11

Musa 'Little Prince'

PP15,255

- A stout dwarf banana
- Perfect for patio
- Great for mass plantings

Sun, Part Sun | 2-4 mths | 6-10" | 6-8 ft | 9-11

Musa 'Margarita'

- A chartreuse selection of 'Siam Ruby'
- Fast growing with the classic banana look
- Non-edible fruit but provides great color

Sun, Part Sun | 2-4 mths | 6-14" | 8-10 ft | 9-11

Musa 'Siam Ruby'

- Vivid red color unlike any other ornamental Musa
- Small bright-green on leaves add to the show

Sun, Part Sun | 2-4 mths | 6-14" | 8-10 ft | 9-11

Tacca integrifolia White Bat Plant

- White bracts with purple tendrils

ORNAMENTALS

NATIVE

ASCLEPIAS

Sun, Part Sun | 2-3 MTHS | 4-8" | 3-5 ft | 3-9

Asclepias incarnata Pink Milkweed

- AKA: Swamp Rose Milkweed
- Attracts lots of pollinators
- Use in pond margins & containers

Sun, Part Sun | 2-3 MTHS | 4-8" | 1-2 ft | 8-9

Asclepias perennis White Milkweed

- AKA: Swamp Milkweed
- Blooms spring, summer & fall
- Use in pond margins & containers

Sun, Part Sun | 2-3 MTHS | 4-8" | 1-2 ft | 4-10

Asclepias tuberosa Butterfly Milkweed

- Host plant for monarch butterflies
- Attracts butterflies and hummingbirds
- Vibrant orange blooms

HAMELIA

Sun, Part Sun	2-4 MTHS	6-10"	3-8 ft	8-11
---------------	----------	-------	--------	------

Hamelia patens Calusa™

- Year round attractive foliage and flowers
- Drought tolerant
- Attracts butterflies and hummingbirds

LOBELIA

Sun, Part Sun	3-4 MTHS	4-8"	2-4 ft	4-9
---------------	----------	------	--------	-----

Lobelia cardinalis Cardinal Flower

- Hummingbird magnet
- Brilliant red blooms
- Blooms in late July

LONICERA

Sun, Part Sun	2-3 MTHS	6-10"	10-15 ft	4-9
---------------	----------	-------	----------	-----

Lonicera sempervirens Honey Coral™

- Heavy blooming honeysuckle
- Hummingbird attracter
- Looks great on a trellis or ground cover

Sun, Part Sun 5-7 MTHS 8-14" 25-60 ft 4-9

Magnolia virginiana Silver Mist™

- Showy, silver-backed leaves
- Compact habit
- Absolute conical shape

MELOCHIA

NEW

Sun, Part Sun 2-4 MTHS 4-14" 4-10 ft 9-11

Melochia tomentosa Pyramid Bush

- Evergreen foliage, flowers year round
- Major butterfly and pollinator attracter
- Long-lived perennial

MYRCIANTHES

NEW

Sun, Part Sun | 5-7 MTHS | 6-14" | 2-4 ft | 8-11

Myrcianthes fragrans 'Geode'

- Attracts birds and pollinators
- Drought tolerant
- Great colorful foliage

Sun, Part Sun | 5-7 MTHS | 6-14" | 2-4 ft | 8-11

Myrcianthes fragrans 'Shostopper'™

- Emerging foliage has rich burgundy color
- Very uniform growth habit
- Fragrant white flowers

PSYCHOTRIA

Part Sun, Shade | 3-4 MTHS | 6-12" | 1-2 ft | 9-11

Psychotria nervosa 'Little Psycho'™

- Dwarf coffee, low growing shrub or groundcover
- White spring and summer blooms
- Red berries in the fall

Sun, Part Sun | 5-7 MTHS | 6-14" | 6-15 ft | 8-11

Myrcianthes fragrans 'Stoppermorph'™

- New growth has white variegated foliage
- Foliage turns green as growing season ends
- Salt tolerant

SILPHIUM

Sun, Part Sun | 2-3 MTHS | 6-10" | 1-3 ft | 7B-10

Silphium asteriscus Native Star™

- Starry Rosinweed selection with short blooms
- Blooms in Spring, Summer, & Fall
- Drought tolerant

VACCINIUM

Sun, Part Sun | 4-6 MTHS | 6-10" | 2 ft | 8-10

Vaccinium darrowii Native Blueberry

- Low growing, showy, bushy habit
- Attracts pollinators
- Small tasty berries

VIBURNUM

Sun, Part Sun | 5-7 MTHS | 6-14" | 5-8 ft | 7-10

Viburnum obovatum Withlacoochee™

- Shrub used as hedge or specimen
- White blooms in Winter & Spring
- Maroon fall color

Sun, Part Sun | 5-7 MTHS | 6-14" | 5-6 ft | 7-11

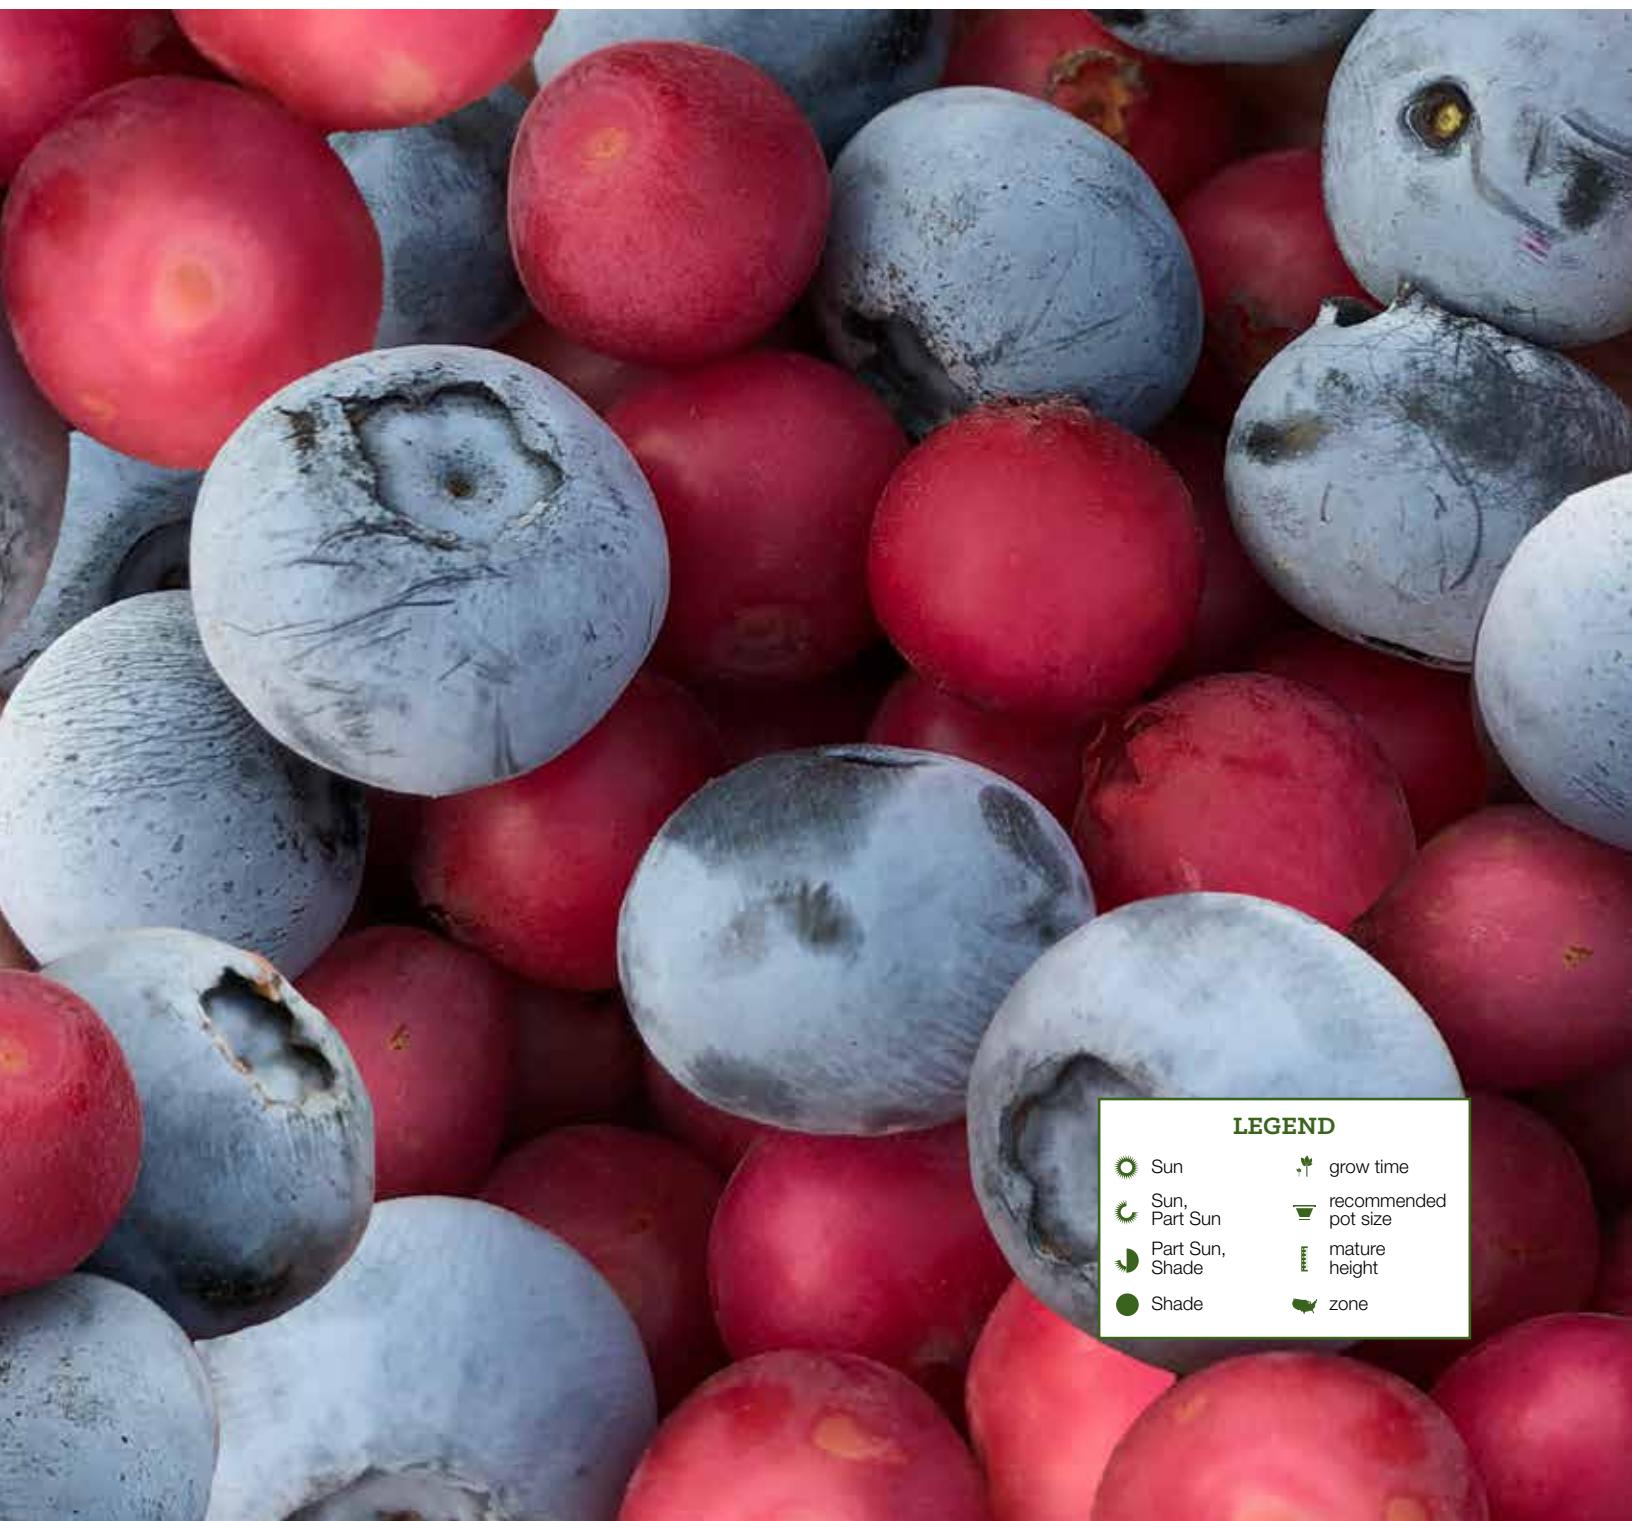

Viburnum obovatum Everleaf™

- Dwarf habit
- White blooms in Winter & Spring
- More evergreen than most varieties of this species

BANANA

D C

Sun, Part Sun | 2-4 mths | 6-14" | 6-9 ft | 9-11

Musa 'Dwarf Namwa'

- Highly sought after banana with incredible flavor
- Prized all over the world
- Lady-finger type banana

D C

Sun, Part Sun | 3-4 mths | 6-14" | 5-7 ft | 9-11

Musa 'Dwarf Orinoco'

- Also known as the Burro Banana
- Angular fruit shape
- Hints of lemon flavor

D C

Sun, Part Sun | 3-4 mths | 6-14" | 7-11 ft | 9-11

Musa 'Ice Cream' (TC)

- Sweet creamy fruit
- Highly regarded
- Outstanding flavor

BANANA

EDIBLES | FRUIT

D
Sun, Part Sun | 2-4 mths | 6-14" | 7 ft | 9-11

Musa 'Double' (Syn. Mahoi)

- A true conversation piece
- Can produce two heads of fruit at the same time
- Dwarf habit

D
Sun, Part Sun | 2-4 mths | 6-14" | 5-7 ft | 9-11

Musa 'Dwarf Cavendish'

- A very popular banana plant
- Wonderful tasting fruit
- Winters well indoors

D **P**
Sun, Part Sun | 2-4 mths | 6-14" | 6-8 ft | 9-11

Musa 'Dwarf Puerto Rican' Plantain

- Bears 7-9 hands of fruit
- Good disease resistance
- One of just a few dwarf plantains

D
Sun, Part Sun | 2-4 mths | 6-14" | 14 ft | 9-11

Musa FHIA-1 'Goldfinger'

- Bred to be a commercial variety
- Excellent disease & wind resistance
- Good cold tolerance

D
Sun, Part Sun | 2-4 mths | 6-14" | 8 ft | 9-11

Musa 'Gran Nain'

- Most common grocery store banana
- Much more flavor when it is homegrown
- Can produce 40-60 lbs. of fruit

D
Sun, Part Sun | 2-4 mths | 6-14" | 5-9 ft | 9-11

Musa 'Lacatan'

- Some claim this is the best tasting banana
- Sweet taste, highly aromatic
- Potential to harvest 1st year

D
Sun, Part Sun | 2-4 mths | 4-10" | 3-4 ft | 9-11

Musa 'Truly Tiny'

- One of the smallest fruiting banana trees
- A great for container production
- Produces a good size fruit

TERMS & CONDITIONS OF SALE

ALL PLANTS SOLD BY AGRI-STARTS, INC. ARE SOLD SUBJECT TO THE FOLLOWING TERMS AND CONDITIONS. AMENDMENTS OR ADDITIONS CANNOT BE MADE BY THE PURCHASER UNDER ANY CIRCUMSTANCE. AGRI-STARTS, INC. SELLS TO WHOLESALERS ONLY, WE ARE NOT A RETAIL NURSERY. YOU MUST BE QUALIFIED AS "TAX EXEMPT" AND PROVIDE US WITH YOUR CERTIFICATE.

MINIMUM ORDER

- 2 Trays (144 plants)
• \$25.00 fee if minimum is not met

PRICING AND PAYMENT

Effective July 1, 2024

Prices are listed on a per plant basis in United States Dollars, F.O.B. Apopka, Florida, USA and are subject to change without notice. Pricing stated does not include documentation, boxes, shipping charges, required testing, special chemical application and other fees.

- All accounts will be cash in advance or cash on delivery until credit is approved.
- Credit can be established by submitting a completed credit application for review. Please allow 2-4 weeks for processing.
- Customers with approved credit, invoices are due on a 30-day net basis.
 - Finance charges will accrue at the rate of 1.5% per month on amounts past 30 days and will be collected.
 - Accounts with a balance over 60 days will automatically become cash accounts until account is current.
- We reserve the rights to suspend credit and hold or cancel shipments if conditions are not met.
- Payment methods include wire transfer, company or cashier check, credit cards & cash.
- A fee of \$25.00 will be charged for all returned checks.
- We accept the following credit cards: MasterCard, Visa, & Discover.
- Accounts 90 days or older may be turned over to a collection agency and will become "no-sale".
- Patented or trademarked items may be subject to royalty payments or restricted to licensed growers or territories depending upon agreements with patent or trademark owners. All royalty charges are included in our pricing.

DELIVERY/SHIPPING

All shipments F.O.B.: Apopka, Florida

Delivery and shipping dates of plants are good faith estimates and are not guaranteed by Agri-Starts, Inc.

For Florida customers outside the local Apopka, FL area, we will be glad to arrange delivery by our trucks in the areas we serve. Please contact your sales representative for further information. There will be a \$2.50 charge per tray for delivered material, with a \$15.00 minimum.

Shipping expenses incurred by LTL carrier, UPS, FedEx, Air Freight, or by any other means is the sole responsibility of the customer. If the shipment requires boxing please refer to our pricelist for current pricing. If an order is to be shipped by means of air freight, the customer must provide the name of the airline, the airport code, and the handling instructions upon arrival. In the event that misinformation is given and the material is either returned to this facility or delivered to the wrong destination, additional freight charges may be incurred and added to the invoice. The method of transportation is at the discretion and risk of the customer.

LIMITED LIABILITY

Agri-Starts, Inc. warrants our material to be true-to-name and in good living condition at the time of shipment. Our facilities and plants are regularly inspected by the Florida Department of Agriculture to be free of dangerous plant pests and diseases.

In the event that any of our plant products [stock] is proven to be untrue to its name as labeled for slow growth, non-producing plants, off types [mutations] our liability is exclusively limited to replacing the material free of charge or refunding the purchase price. Agri-Starts, Inc. will not be liable for consequential damages or for any amount more than the actual purchase price for the plant material. No warranties, either expressed or modified, including the warranties of merchantability and fitness for a particular purpose, are extended.

CLAIMS

- All orders are shipped at customer's risk. All shipments become the property of the purchaser when the carrier picks up the order. The purchaser must file any claim for transportation damage with the carrier.
- All boxed orders are carefully packed & inspected prior to shipment. Once they leave our premises we no longer have control of how the material will be handled. Rough handling may cause plants to be dislodged from trays during shipment. Most of our plants are extremely fast growing and forgiving. There may be some minor damage to the leaves during the packing and shipping process. The plants will respond rapidly upon planting and these damaged leaves will recover quickly.
- All plant material should be unpacked and inspected immediately upon arrival. Claims on unsatisfactory quality must be made within 48 hours by fax, telephone or email after receipt of goods. Beyond these specified timeframes material shall be deemed to be accepted in good condition. Agri-Starts will not consider any claims that arise after delivered materials have been planted, stored, transplanted or altered in any manner.
- The following digital images of the plant material being claimed are required (only clear images are accepted):
 1. Trays as they are being unpacked
 2. Overall photo of the group of plants being claimed
 3. Close ups of the plants to show the reason for the claim

PACKAGING

2 Tray Box

80 Tray Pallet Rack

4 Tray Box

Our packaging department takes great care to insure that your plants arrive in perfect condition. Each box is lightly shrink wrapped for shipping to keep the plugs from bouncing around during transport. The shrink film is easily opened by pulling it apart at the seal. Our pallet rack works great on large orders that are shipped by truck. When delivered take it right into your potting area!

2-3 Tray Box: \$5.00 - \$6.00

2-3 Tray Box Winter Pack: \$8.75

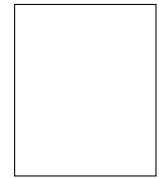

4 Tray Box: \$9.00

5-6 Tray Box: \$10.25

80 Tray Pallet Rack: \$185.00
